

## JUNEAU ELECTRIC VEHICLE ASSOCIATION

February 23, 2017

### Resolution 2-17

#### **Resolution to CBJ to advocate for charger installation and fleet conversion**

Whereas Juneau, Alaska is one of the fastest growing EV communities in the Nation, and

Whereas Juneau, Alaska is ranked #2 in per capita of EV ownership quickly approaching 150 Electric vehicles in the Juneau community, and

Whereas, Juneau EV growth has been identified in regional and national media, and

Whereas over 90% of the Electric Vehicles in Alaska are in Juneau, and

Whereas Juneau has a dozen and growing number of electric vehicle chargers installed by Juneau private businesses and foundations, and

Whereas the CBJ Comprehensive Plan and the CBJ Climate Action Plan call for actions for the CBJ to convert municipal fleet and buses to electric, and

Whereas the Juneau Electric Vehicle Association is a chapter of the 501(c) 3 non-profit Electric Auto Association, and

Whereas, Electric Vehicles are lower cost to maintain and operate, and

Whereas, Electric Vehicle and Bus integration in the CBJ fleet can save the Juneau taxpayers money, and

***Therefore, be it resolved, the Juneau Electric Vehicle Association adopted a resolution requesting the City and Borough of Juneau begin in earnest and expedite the electrification of its municipal fleet of applicable vehicles and buses where deemed prudent to conserve future operating funds and to promote Juneau as a nation leading growing EV community, and***

***Therefore, be it further resolved that JEVA requests the City and Borough of Juneau assist in expanding and promoting Juneau as a leading Electrical Vehicle transportation community in America.***
